

Avoca Vanity

Loughlin Furniture

Crafted for life

Since 2009, Loughlin Furniture has been a founder led, family run Australian business, built on a love of timber, considered design and the craft of making things well. Loughlin Furniture remains proudly Australian made, with a deep respect for timber and the craft of working with it. Today, our team of 21 craftspeople manufacture all of our products from start to finish in our Australian workshop, creating furniture focused on hand-crafted woodwork and the unmistakable character of real timber. We believe the beauty of timber lies in its individuality — every grain, knot and variation tells part of its story.

Our work is guided by a simple philosophy: use beautiful natural materials, make things properly, and create products that are made to be lived with, loved and passed through the years.

Loughlin Furniture

10 years of the Avoca Vanity

A decade ago, we created the Avoca Vanity with a simple belief — that bathroom furniture should be crafted with the same care and consideration as every piece throughout your home. Handcrafted in Australia from solid timber, the Avoca was never designed to follow trends. Its timeless proportions, considered details and natural materials have allowed it to remain a favourite for over ten years.

Now thoughtfully refreshed with 4 new drawer fronts and a curated selection of stone tops, the Avoca Vanity enters its next chapter while staying true to the craftsmanship and character that made it a Loughlin Furniture signature.

A timeless design, Crafted for life.
